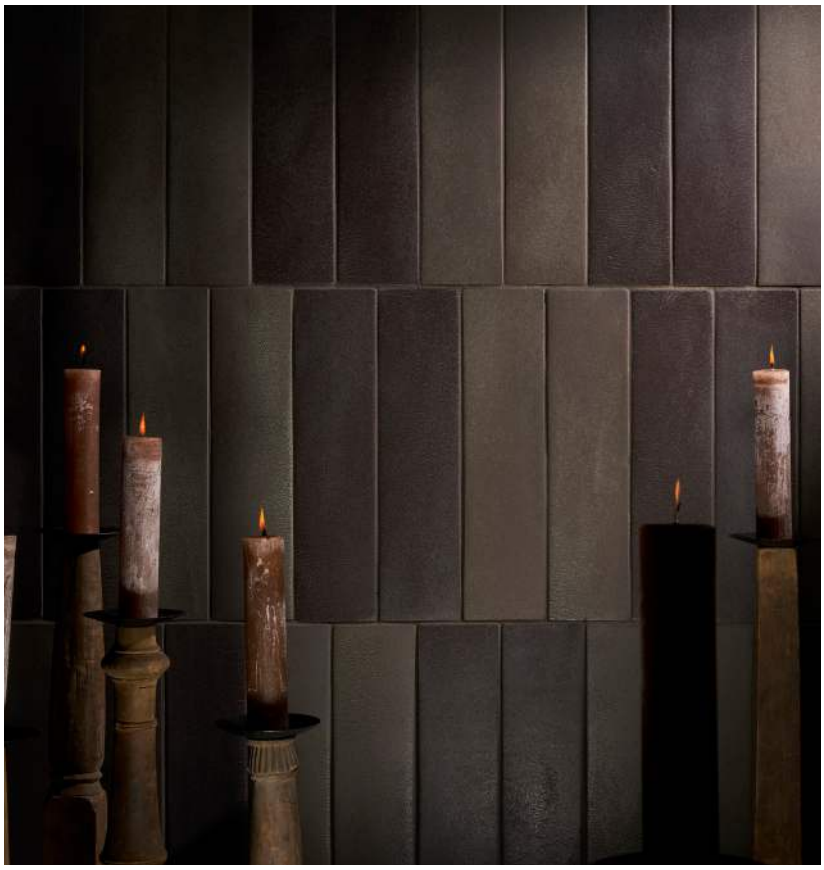
Venere Decor, Venere

Nebula



Cappero, Ossidiana

Nebula is a tactile, luminescent tile collection, inspired by the sparkling nebula in the night sky often referred to as ‘the birthplace of stars’.

Each tile is formed from a black base, applied with a wash of colour that absorbs and refracts the light in unusual ways, making every tile unique.

The range comes in base colours and décors, with the latter finished in metallics that encourage movement and light.
