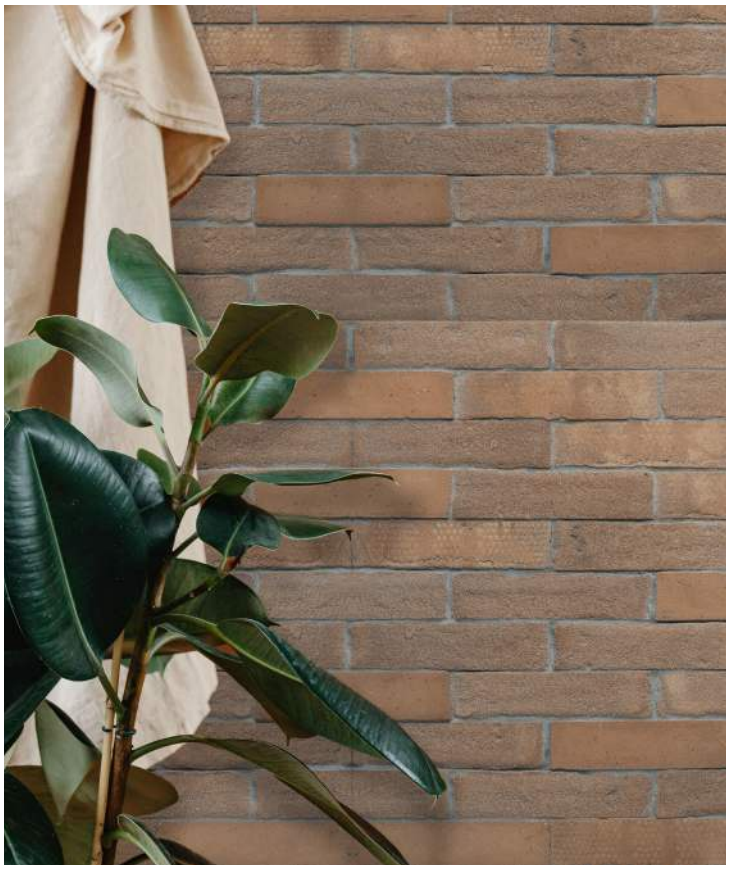
Habitat



Landscape Red

Introducing Habitat, a tribute to the raw, tactile honesty of Italian terracotta.

This full body, unglazed collection breathes life into the classic brick format, offering a characterful wall covering that is modern, industrial and nostalgic all at once.

A curated palette of six distinct tones has been created using natural clays and mineral pigments, informed by millennia-old traditions.

The timeless 60 x 250mm brick format has been developed for use indoors and out, perfect for herringbone, stack bond, or traditional brick patterns. Paying respect to the slow-cycle traditions of terracotta, each unglazed brick is fired to reveal a unique pattern and texture.
