Coral Hammered

Duet

Carbon Hammered

Duet reimagines classic granite through the lens of texture.

Durability and low porosity allow Duet granite tiles to easily transition between interior and exterior spaces, making a visually appealing and considered choice.

In a refined 50x200mm format with a substantial 15mm height, this brick style range tempers the natural boldness of granite with two contrasting finishes - hammered and chiselled.

Available across eight stones, each with its own colour nuance and patternation, Duet brings depth and movement to create a more architectural, design-led stone product.
